DETAILED ACTION

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with David Wisz on 09/16/2003.

The application has been amended as follows: In claim 13 line change the word "a" (third occurrence) to __ the __.

In claim 13 line 4 change the word "cylinder" to __spring__.

In claim 13 line 5 change the word "a" (first occurrence) to __the__.

In claim 13 line 7 change the word "a" to __the__.

In claim 21 line 2 change the word "comprising" to __comprises__.

Allowable Subject Matter

Claims 1, 2 and 5-24 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art of record does not disclose or teach an actuator assembly comprising a telescoping gas spring with a linear motor that drives the telescoping spring between an extended and a retracted position wherein the linear motor and gas spring have a common axis as recited in claims 1, 8 and 13.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Sedlak 6,318,025 A teaches the idea of a gas spring strut counterbalance system

where a rotary motor is used to partially open a vehicle liftgate in column 1 lines 24-44. When the liftgate is opened to partial extent, then the gas springs exert sufficient force to open the liftgate fully. Kamm 6,269,928 B1 teaches using a linear motor connected to a gas spring where the motion of the motor drives the gas spring between an extended and a retracted position. In Kamm, the linear motor and the gas spring do not share a common axis. Kamm shows the linear motor and the gas spring on parallel axes.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Judson H Jones whose telephone number is 703-308-0115. The examiner can normally be reached on 8-4:30 M-F.
